Beyond The Octave (BTO) Piping and Drumming Academy is 1 of the 3 operations that is responsible for the instruction of pipers and drummers in all parts of Asia. Since 2012, we have seen hundreds going through our method of teaching, with some playing competitively in Australia, New Zealand and Scotland.

BTO Standard Music Pack contains repertoire meant for pipe bands under our instruction. The collection of pipe and drum scores in this music pack are carefully chosen, to allow pipers and drummers with varied skill level to put up basic stage performances and parade duties.

As many of our students are from the Boys' and Girls' Brigade, we have included some of BB, GB tunes, and a couple of Christian Hymns in this package.
